Kurt's Chat

Dear Members:

I would like to thank all of you for the opportunity to serve as your 2005 Plymouth County Water Works Association President.

As one of my first official acts, I would like to thank Dave Masciarelli, our outgoing President and Thomas C. Sexton, our outgoing membership chairman for their contribution, time, dedication and expertise to this association.

I would like to welcome Jack Marsh as our new membership chairman and Joe Coulter as our nominating chairman.

The Water Works profession brings with it a great deal of responsibility. Our goal to provide an adequate amount of potable drinking water to our customers is often overshadowed by worthy and necessary diversions. These often include fighting for rate increases, getting road trenches patched, taking care of customer complaints, upgrading our water system and the list goes on and on. We are increasingly forced to do more with less. To be more effective and efficient we must keep up with the latest technology. That is why being a member of this association and attending our meetings is so important.

Our new membership chairman, Jack Marsh, has updated the association website to include enhanced communication opportunities for our members and the means of getting pertinent information to other members. The web site www.pcwwa.org is available for our members. We are requesting that all members supply their email address to Jack at this web site.

PCWWA has had a wonderful forty-six years of helping its members. I know the forty-seventh year will be successful.

An association is only great when the members make it great. We have a great association.

Kurt Gaffney

President
