Dear Plymouth County Waterworks,

I wanted to personally thank you for your kindness in awarding me the Jack Hoadley Memorial Scholarship. College is one of the most defining parts of life, one that just is not an option in the modern age, but a necessity. I received some help from the school, and from my wonderful parents, but even with that and every penny I have earned, I could never afford my dream college, Wentworth Institute of Technology.

Thanks to you, that dream is one step closer, and my worries about money a bit smaller. I will not forget the kindness you have done for me, and try and pay it forward as I go about learning, and living my new life in Boston.

Thank you.
